These data are not intended for use in site-specific screening or decision-making. They may not be accurately portrayed or resolved. This data set provides a large-scale conceptual model of the geology of the area on which to base further work. However, these interpretations are based on data that may vary with respect to accuracy and completeness. Contoured features less than 7 million square feet (about 1/2 mile square) in area are shown, but those less than 2 million square feet (about 1/4 mile square) may not be accurately portrayed or resolved.
