Danville Coal Sulfur
WASHINGTON County

Map Explanation

- The map is a digitized version of a County Coal Map Series that provides a visual representation of the coal resources in the area.
- The map includes information on the extent and thickness of coal seams, which are depicted using various symbols and colors.
- The data used to create the map were compiled from various sources, including surveys, geological studies, and historical records.
- The map is intended for educational and informational purposes, and it is based on the best available data at the time of its creation.
- Users should consult the Illinois State Geological Survey for the most current and accurate information on coal resources.

Disclaimer

- The Illinois State Geological Survey makes no warranty, express or implied, regarding the accuracy or completeness of the information in this map.
- Use of this map is at the user's own risk.
- The Illinois State Geological Survey is not liable for any errors or omissions in the information provided on this map.
