These data are not intended for use in site-specific screening or decision-making. The content in these files is subject to the limitations of the data and varies from place to place. However, these interpretations are based on data that may vary with respect to accuracy and completeness. They are not intended for providing information for the purpose of construction or land use. The interpretations presented in this map are based on available data and are considered to be credible and valid for the areas depicted. The interpretations are based on geological, geophysical, and other data sources and are intended to provide a general overview of the geologic structure and composition of the area. The data and interpretations are subject to change as new information becomes available. The interpretations are not intended to be used for legal, engineering, or similar purposes. The map is intended for informational purposes only and is not intended to be used for detailed geological analysis or site-specific studies. The user is responsible for determining the appropriate use of the data and interpretations presented in this map. The map is not intended to be used for the purpose of engineering, construction, or land use.
