Map Explanation

The map and data from which maps were created have been subject to various updates and improvements over the years. The University of Illinois at Urbana-Champaign and the Illinois State Geological Survey have not verified the present interpretations of the geology of the area and are based on available data. Contoured features less than 7 million square feet (about 1/2 mile square) in area may not be accurately portrayed or resolved. This data set provides a large-scale map of the area and is based on available data.
