Springfield Coal Thickness
MACON County

Map Construction: October 20, 2019

Notes: Rocks present only in subsurface. Local oil-field names have been retained and have not been adopted formally yet by the ISGS and are subject to change. County coal maps and related products are available on the Illinois State Geological Survey website: http://www.isgs.illinois.edu/maps-data-pub/coal-maps/county-index.shtml

Map Explanation
The maps and digital products of the Illinois State Geological Survey (ISGS) are intended for use by the general public and do not represent an endorsement of the accuracy or precision of the data. The ISGS makes no warranty of any kind, expressed or implied, regarding the accuracy, completeness, or suitability of these maps and products for any particular purpose. The user assumes all liability arising from the use of these maps and products.

Disclaimer
The Illinois State Geological Survey, through the Illinois Natural Resource Sustainability Institute, is committed to providing maps and products that are accurate, current, and reliable. However, due to the dynamic nature of geological data, the accuracy of these maps and products may vary. The user is advised to use these maps and products at their own discretion and liability.
