Colchester Coal Depth
SHELBY County

Map Explanation

The map is an approximation of the subsurface distribution of the Colchester Coal Bed. It is based on data provided by the Illinois State Geological Survey. The map is intended to show the general location and depth of the Coal Bed. However, it should be noted that the data may have some limitations in accuracy due to the nature of the geologic processes and the available data. The map is not suitable for detailed engineering or mining applications. The map includes the general location of the Coal Bed, but individual variations may occur. The map is not intended to be used for legal purposes or to define property boundaries. The map is provided for general information purposes only and should not be used for decision-making related to the subsurface location of the Coal Bed. The Illinois State Geological Survey and the University of Illinois make no guarantee of the accuracy of the data used to create the map. The map is not intended to be used for legal purposes or to define property boundaries. The map is provided for general information purposes only and should not be used for decision-making related to the subsurface location of the Coal Bed. The map is not intended to be used for legal purposes or to define property boundaries. The map is provided for general information purposes only and should not be used for decision-making related to the subsurface location of the Coal Bed.
